WORK EXPERIENCE

AUG 2022 – Present — **JobTarget**

Security Engineer (GRC Analyst)

- Performs governance, risk management, and compliance activities in support of regulatory requirements and industry standards such as ISO 27001, PCI DSS, and Data Privacy.
- Develop documented information and formulate trackers, reports, forms, pages, and cybersecurity awareness materials.
- Generates Information Security metrics and reports for executive leadership.
- Random and scheduled audits of security controls.
- Compliance activities for regulatory requirements.
- Plan and implement any information security-related projects.

JUL 2019 – JUL 2022 — **Global Payments**

Information Security and Compliance Analyst

- Overseeing the day-to-day execution of the organization's security and compliance programs, maintaining and implementing measures to minimize cybersecurity and privacy risks, ensuring adherence to ISO 27001, ISO 9001, PCI DSS, Data Privacy, and other relevant standards:
- Perform routine duties like Incident Management, Security Assessments such as Risk Acceptance Request, Third-Party Security Assessment and contribute to any departmental projects.
- Perform annual reviews for Integrated Management System (ISMS and QMS) Risk and Opportunity Assessments and System Access Matrix.
- Conducts Internal Quality Audits and Risk-Based Process Assessments.
- Conduct due diligence for the external data transmission process.

Language

- Filipino
- English

APR 2018 – OCT 2018 **EMAPTA**

Reports Analyst

- Ensure timely delivery of accurate reports by validating data and implementing sanity checks.
- Updating and maintaining the reporting process.
- Developing new reports for stakeholder decision-making.

AUG 2012 – JUL 2017 **ACCENTURE INC.**

Transaction Processing Associate (Energy BPO Non-Voice)

- Processed data correction for electricity service/billings, defect from migration, and automation.
- Processed accurate and timely telecommunication client requests found in the Ensemble system. It involved both telephone and internet access.

Quality Auditing Associate (Health BPO Non - Voice)

- Regular Quality Audits based on accepted standards.
- Agent–wise quality monitoring of transactions (benefit coding and testing).
- Generated, created, and sent timely and accurate audit reports wherein daily, weekly, and Month to Date (MTD) scores are available for a different line of business/team and overall QA team End of Day report.
- Identifies Root Cause Analysis (RCA) for audited transaction errors, conducts coaching, and performs trending analysis as needed.
- Created process checklist, weekly exam, and error discussion topics and facilitated daily error discussion.
- Engaged weekly calibration with project SMEs and QAs.
- Facilitated process-specific training for new members and cross-train.
- Performed project Information Security and Management System (ISMS) and Compliance audit as a team member with a focus on HIPAA compliance.

Data Analyst/Encoder (Health BPO Non - Voice)

- Identifies, assesses, and resolves issues and escalations related to Pharmacy Benefits Management (PBM) accounts (health insurance claims) by applying knowledge of the processes, various systems and tracking tools. The end-to-end process involves research, analysis, data entry, running a macro, testing, and auditing.
- Maintains and sends team daily reports
- Serves as a Point of Contact (POC) and Subject Matter Expert (SME) and functions as a Process Trainer.
